 **CoPilot**

 Hi, were there any safety incidents last week?

 Sure, let me gather the data for you...

**1. Fall Hazard Open Excavation (2024-04-26 T01:35:59)**

A worker was observed near an open excavation without proper fall protection. This occurred in the center of the camera's view.

The screenshot displays the Evercam CoPilot interface. On the left is a sidebar menu with options like Gate Report, BIM, Drone, 360°, Timeline, Media Hub, Video Wall, Project Members, Automations, and Map View. The main area shows a live video feed of a construction site with a timestamp of 02/05/2024 08:01:06. On the right, there's a chat window with the Evercam logo and the text "Hi! :) How can I help you today?". At the bottom, a message input field contains the text "Hi, were there any safety incidents?".
